The Brunswick city layout and park system are a part of the original city plan designed by General James Oglethorpe in 1771. Since their incorporation, Julie and her highly motivated team of sponsors, donors and volunteers have spearheaded the successful restoration of four park squares including Hanover Square where Julie and family reside in a restored 1880 residence that was once the childhood home of Glynn County Commissioner Clyde Taylor. With ten more historic park squares to tackle, Julie Martin and her team of supporters have their work cut out for them well into the next decade. Julie's interesting talk and dynamic PowerPoint presentation conveyed the spirit of the project which is solely supported by private donations and corporate sponsorships.
