Object of Rotary

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

First

The development of acquaintance as an opportunity for service;

Second

High ethical standards in business and professions; the recognition of the worthiness of all useful occupations; and the dignifying of each Rotarian's occupation as an opportunity to serve society;

Third

The application of the ideal of service in each Rotarian's personal, business, and community life;

Fourth

The advancement of international understanding, goodwill, and peace through a world of business and professional persons united in the ideal of service

The Four-Way Test of the things we think, say or do

1. Is it the truth?
2. Is it fair to all concerned?
3. Will it build goodwill and better friendships?
4. Will it be beneficial to all concerned?

Classification Talks Jean Hurst and Te Turner

Jerry Schueneman was on vacation, so Paul Pieschel stood in to introduce fellow Rotarians Jean Hurst and Te Turner. Jean Hurst spoke first.

Jean's "colorful life" as she described it, has touched on many experiences connected to the academic environment. She described her life from a book title, *Life on a Train*, comparing hers as "a journey with many winding turns, delays, stops, starts and happy arrivals." Her train took her to four states and seven different university campuses where she held leadership positions centered on the performing arts and drama, the visual arts, continuing education, conference center supervision, English department chairmanship, and art gallery curation.

Jean's experiences as an educator started at Young Harris College, located in the town by the same name where she is from. She then moved on to Western Carolina University, Florida State University where she got her PHD, and Tallahassee Community College where she founded the Ralph Hurst Gallery honoring the work of sculptor and late husband, Ralph Hurst. Later, on to work at Georgia Tech, the University of Tennessee, and finally, the University of Georgia's Tifton campus. Phew! Thanks Jean, for sharing your most interesting and winding train ride through life!

Te Turner spoke next about his compelling career and journey through the world of finance. A self described "baby-boomer from Little Rock," Te received his undergraduate degree in Economics from Rice University, and later, a MBA from the University of Chicago where he studied with the likes of Milton Friedman. His early career took him to exciting places for short career stops in the 'Big Apple,' Paris, and Rio de Janeiro! He confessed that the excesses and temptations of Rio nearly killed him at just 25 years old! But, he was able to make it out in one piece returning to the U.S. for a twenty-year stint back in Little Rock as an Investment Banker for Stephens Inc.

His investment banking career involved raising debt and equity capital for companies in the restaurant, telecommunications and healthcare industries, managing a number of IPO's. He also handled numerous M&A transactions capped by his largest deal, a five-billion dollar merger involving Columbia Healthcare led by Rick Scott, the current Governor of Florida. Since leaving investment banking he has been involved in several entrepreneurial ventures.

Te got to St. Simons Island because of his lovely and talented wife Kathleen Turner, who was hired by Christ Church as their Choir Director. Thank you Kathleen for helping to bring Te to us, so we could hear his story!

"Thank you" to two great new Rotarians for sharing your lives and recollections with our club!
